

JM Partner Gateway FAQs: Offering Jewelry Insurance to Your Clients

1. What documentation is needed when applying for jewelry insurance from Jewelers Mutual Group?

Although not required for policy issuance in all circumstances, we recommend that agents or customers submit documentation that shows the description and value (appraisal, detailed sales receipt, prior declarations page, screenshots from an internet purchase, serial/model number or warranty card for watches) at time of application.

If applications are referred to underwriting, customers will need appraisals within the last 24 months.

2. What are the underwriting and referral guidelines?

Disclaimers: Appraisals, proof of purchase (detailed sales receipts, copies of the warranty card or owner's manuals for watches), and/or photos will be required at the time of a claim. We recommend those be sent to us no matter the value, using our online portal upload options or emailing them to personaljewelry@jminsure.com. Please include the account number.

Jewelers Mutual Group team members will reach out directly to the customer in 1-2 business days to gather the necessary information from the applicant directly for any underwriting referrals.

Adjustments to premium and/or deductibles may be made by our underwriting team as a condition to provide coverage.

3. What is TruePic? What if my customer needs help?

Jewelers Mutual Group utilizes TruePic, a company known for industry-leading photo authentication technology to perform virtual inspections at the point of underwriting. Items such as jewelry photos, safe or vault photos and appraisals are submitted through TruePic to support the underwriting process.
