

Why Choose Wright Flood?

We stand out as the industry leader.

As the largest provider of NFIP policies in the U.S., we take pride in offering flood insurance solutions, user-friendly technology and exceptional claims service to agents. In addition to providing federal flood insurance, excess flood coverage, private flood solutions and leading industry expertise, we have earned an A (Excellent) rating from AM Best for our financial strength and have a long-standing relationship with FEMA.

We help you understand NFIP changes.

Wright Flood continues to stay abreast of FEMA's changes and program updates to provide a seamless transition for agents. From new business policies to renewals, we provide updates through e-mails and webinars and training to help agents communicate with customers as the expert reliable source of flood insurance information.

We provide top-notch claims service.

Wright Flood is dedicated to making our claims service as easy and stress-free as possible. We offer five ways to file a claim: Chat with our chatbot CLOE, e-mail, text, phone or online. Our in-house flood claims management team is dedicated to integrity and service. We are proud to have been there to help communities recover from large disasters such as Katrina, Harvey, Ian, Helene, and Milton.

We are Flood.

At Wright Flood, our sole focus is flood insurance. From educational webinars to flood brochures and marketing tools, we provide a wealth of useful information and extensive support. Our online quoting tools are designed for ease of use, accuracy and NFIP compliance and all policies are processed under our roof without third-party vendors.

We offer options.

Our proprietary private flood product - FocusFlood - offers eligible properties expanded coverage and, in some cases, lower premiums. Notably, all of our partner carriers are rated A+ (Superior) or higher by AM Best, providing added confidence in the coverage offered in our private flood marketplace. Plus, it's easy to quote with our cross-sell pop-up window. You can rate a property for an NFIP policy and immediately see your private flood options.

We help protect what others can't.

Most homeowners and business property insurance policies do not cover the peril of flood. Floods are unpredictable and occur everywhere. Studies show that over the course of history, property owners who are far away from oceans and rivers are still very much at risk. People outside of high-risk flood areas file more than 25% of NFIP claims. For those who do not have a flood insurance policy, assistance is only available if the President declares a disaster, and typically in the form of a loan that must be repaid with interest.
